Specializing in design driven masculine apparel for women and transmen, we are HAUTEBUTCH- a fashion + footwear + lifestyle brand. Our Ready To Wear apparel consists of military inspired jackets, tuxedo and dress shirts, accessories, undies and our very own capsule collection of footwear. Looking ahead, our short term goals are to add blazers, vests and slacks that remain true to the edgy HAUTEBUTCH aesthetic that makes us unique.

We hope that butch, androgynous and trans\* style seekers can consider this label a "go to destination" for all things fashion and fierce. As a designer of "menswear for women"- having a unique style of my very own, I've known the oppression of feeling invisible and the impact of that on my self esteem. Global fashion brands have ignored me/us for years - our style aesthetic challenges the "norm" and it hasn't been important enough to them. It is important to our team and so is the customer experience. At the helm is KMichelle (aka Karen), Founder, Designer and CEO of the company. A U.S. Navy Veteran and entrepreneur, Karen sits on the SRJC Advisory Board for the Fashion Studies Program.

**We hold the vision to build a fashion, footwear and lifestyle brand that celebrates diversity, inspires acceptance and fosters the expression of individuality. We want to completely set a new standard and class for the way our community shops for clothes. When you place an order with us, you will be selecting your garments from a company that was conceived with innovation and will succeed as a result of determination, strong work ethic and conviction.**
